Registration for the City Election Commences To-Morrow.

PARK CITY AND TINTIC COMPARED

Big Grist of News from the Mines that Have Made Utah Famous-Personal and General

present—a full board.

The meeting was called to hear the report of the committee on fire and water upon the water question, which had been tabled, pending the report of the city attorney upon the title of the Dority spring.

The attorney reported that he had secured an abstract of the property and that in his mind the title to the spring was in doubt, and only a survey of the ground could decide the matter. The option which the city had upon the property had been extended until April 5, so that the matter could be settled.

Mr. E. P. Ferry was present and stated

the water question, which had been tabled, pending the report of the city attorney upon the title of the Dority spring.

The attorney reported that he bad secured an abstract of the property and that in his mind the title to the spring was in doubt, and only a survey of the ground could decide the matter. The option which the city had upon the property had been extended until April 5, so that the matter could be settled.

Mr. E. P. Ferry was present and stated to the council that it was the intention of the Anchor, the Ontario and the Daily mining companies to pipe the water of several lakes, which hie just below the Lackawaxen, and are owned by the Anchor company, to their respective mines. The engineers had reported that the supply of water was more than adequate to the needs of the mines, and it was his belief that there was ample water for the use of the mines and the city, and to spare. He chought the city could go in with them, purchase the water to the city at its own there bring the water to the city at its own expense, and get an abundant supply of pure water. Ho was not talking upon authority, because the Anchor acted through its board, and what he had to say was simply the opinion of himself and Mr. Mc.

Total

With her five big mines, Tintic falls short by \$2,245,000 of being as valuable as the Ontario and the Daily. She might put in by \$2,245,000 of being as valuable as the Ontario and the Park's two great mines would still be ahead. We might go on and value the Anchor Allance, Apox, Crescent, Giencoe, Woodside, Lucky Bill, Pioneer, West End and a host of others, but we forbear. Tintic is a good little camp, and we only wish that she will become what Park City now is. It is to be hoped that the rumors that the Hymalays is to be actively worked this summer have foundation, as it is valuable. Word has been received from M. Dusselder, who is in London, that he is now making arrangements to raise enough cash to operate the mines on an extensive scale. This will be company the opinion of himself and Mr.

OTAH'S GREAT CAMP Laughlin—two of the directors. However, Mr. Smith, another director, was expected to arrive here this month, when a definite ling in a region of country where fever and to arrive here this month, when a definite

was necessary.

The committee was also instructed to confer with Mr. E. P. Ferry as to his proposition after which the council adjourned.

sheare of C. D. Rookledge.

Mrs W. A. Adams has been very ill during the past week.

Park City invites the attention of capitalists to her undeveloped mineral country.

She has the greatest mines in the territory, and more rich undeveloped ground than any camp in the west.

Hegistration for the coming city election commences Monday pext. Joseph M.

goods into his new store this week. He has now the largest establishment in the has now the largest establishment in the territory outside of Sait Lake and Ogden. The store covers 23,000 feet of surface and includes three departments, in which can be found almost everything needed in town. The new store is a model of neatness and reflects great credit upon the contractor, Mr. Pope, and Mr. Aschheim.

Park City has produced more of the precious metals than any other camp in Utah, but still is only in her infancy. Her undeveloped ground is as rich as the producing properties and only needs capital to bring them out.

Woodside avenue was lighted up this was read to the Marsac mill, the present one being too small to do the work required property. The shaft which drives the blower at the Ontario drain tunnel broke Thursday, and stopped work for a day.

The opening up of the Meears property will be a big thing for the Park. Adjointing the Daly, as it shows, there can be no doubt but that it will be a big mine.

Only fifty teet are to be run in the Silver Key tunnel to tap the vein. When cut the vein will be expiored as will also the vein cut some time ago. A fifty-feet cross-cut has been run on the latter.

ducing properties and only needs capital to bring them out.

Woodside avenue was lighted up this week. The electric light company put in the lights which were ordered some months ago and Thursday night they were in use, it is a great improvement and will be appreciated by the residents of that street.

There are no wildcat schemes in Park City. Judicious investments have always paid big.

The Union concentrator, Anchor and Woodside mines paid off their employees this week.

Little's "World" is booked for the opera house Monday night.

The weather has been fine during the past week and at present betokens the approach of spring. The snow is melting rapidly and the roads are becoming very soft.

Park City has only bargains to offer in return for capital invested.

The "Queen Esther" cantata rehearsals are getting along nicely, and it is expected that it will be presented in a couple of weeks.

Little's "World" is booked for the opera in the Eureka Chief says that in speaking of the Park usually only two has the Outario and Daly are mentioned—that we have only two great mines—but Tintic, when 's he has the Champion, Eureka Hill, Mammoth, Northern Spy, and a host of others. The Park with all of Tintic's, giving capital stock, value etc., of the companies, they become great indeed. The following is, we take it, a fair comparison:

Shares, Price. Value.

Ontario Shares Price Value Ontario 150,000 \$42,00 \$6,300,000 Daly 150,000 18.00 \$,700,000

Park City is the greatest camp in Utah and leaves all others far behind:

weeks.

THE CITY COUNCIL.

The city council held a special meeting Tucsday evening last with Mayor Grogar and Aldermen Berry, Kimball, Lockhart, Thompson, McDonough and Williamson present—a full board.

The meeting was called to hear the report The meeting was called to hear the report Bufflon-Beck, (estimated) 1,630,000 Euroka Hill, 1,630,00

to arrive here this month, when a defin ite proposition could be made.

This gave another phase to the question and seemed to strike the council as being the best plan yet mentioned.

The question of buying the city waterworks, should a plant be put in, was discussed but no action was taken.

The report of the committee was tabled until the next regular meeting and the committee instructed in the meantime to ascertain in whom the title of the Dority spring rested and to report such expense as was necessary.

The committee was also instructed to continuous discussions of digestion and secretion are assisted by its use, and a vigorous as well as functions of digestion and secretion are as-sisted by its use, and a vigorous as well as regular condition of the system promoted by it. Constitution and physique are thus defended from the inroads of malaria by this matchless preventive, which is also a thorough remedy in the worst cases of in-termittent and remittent fevers.

as shipped this week, as of the Marsac mill made a large shipment of sulphides Priday.

The Marsac mill made a large shipment of sulphides Priday and catarrh of the bladder. Tried several dectors, but you to replice. Finally, at the division of sulphides Priday.

The Marsac mill made a large shipment of sulphides Priday.

The Daly No. 2 shaft has reached a depth of Sulphides Priday.

A force of men is at work putting the Crescent concentrator in condition for the resuming of work.

The Crescent transway will be reopened as soon as the snow leaves the track. If the pleasant weaker continues, it is quite pleasant weaker on hand at the sampler, be sides a large amount at the mine. A ship ment will be made during the coming week it is pleasant unnel promises much for the line's kanglish Daddooth Tonic take briday.

A force of men is at work putting the Crescent concentration in condition for the resuming of work.

The Crescent transway will be reopened as soon as the snow leaves the track. If the pleasant weaker continues, it is quite pleasant weaker continues, it is quite pleasant will be made during the coming week.

B. O. Dick, special agent of the Franklin Fire Insurance company, was in the Park vediceades, looking up the company's business here.

Ulderman O. C. Lockhert was a visitor validate of the pleasant nunnel promises much for the languar tunnel promises much for the langua Alderman O. C. Lockhart was a visitor to Sait Lake Friday.

John Judge is in the Park again and has resumed his duties as foreman of the Daly.

James McGrugor, managing director of the Crescent company, came up from Sait Lake Wednesday.

Charles V. Jenkins has been looking after Mackintosh's sampler this week in the absence of C. D. Rookledge.

Mrs W. A. Adams has boen very ill during the past week.

Registration for the coming city election commences Monday next. Joseph M. Cohen and C. V. Jeckins are registrars, the former to have charge of the Second ward, and the latter the First and Third wards. Parties having changed their residence since the last election should notify the registrars to that effect.

Investments in Park City mines have always been remunerative when backed by judgment and careful management.

M. S. Aschbeim moved his stock of dry goods into his new store this week. He has now the largest establishment in the territory outside of Self Lake and Ogden.

THE PULP.T AND THE STAGE.

Rev. F. M. Shrout, pastor United Brethren church, Bine Mound. Kan., says; "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my parishionera thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 pounds in weight."

Arthur Love, manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Ur. King's New Discovery for Consumption beats em all, and cures when everything else faila. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at A. C. Smith & Co.'s drug store. Regular sizes 56 cents and \$1.
